

FLORIDA ETHICS

Debates, Decisions, Solutions

30th Annual!

Sponsorship opportunities

30 years! The University of Miami Miller School of Medicine Institute for Bioethics and Health Policy and the Florida Bioethics Network have the privilege to announce that 2022 will mark the 30th anniversary of the “Florida Bioethics: Debates, Decisions, Solutions” conference. We believe it is the largest and longest-running community ethics event in the country.

Though we will remain online, we will vary this year’s program, beginning with a 3-hour, 30th-anniversary celebration and program on April 29. Thereafter, and into the fall, we will host a series of shorter events. Annual sponsorship covers all sessions.

Being a co-sponsor of this important series signals your institution’s commitment to ethics in health care.

Plans for the program are subject to change but include special sessions on fertility and the law, disability, the role of clergy on ethics services, abortion, and ethics consultations.

Because online costs are lower than in-person meetings, this year’s sponsorship amounts are reduced. In most cases, conference support is less costly than a single newspaper or Web advertisement. Sponsoring hospitals, hospices, and nursing homes identify funds to support professional development in ethics in their education, advertising and public relations budgets. Leading institutions have ethics budgets.

It has been compellingly argued that every healthcare institution ought to support such professional development in ethics. Indeed, why would one not want to? Moreover, sponsorship levels of \$1,000 and above receive automatic FBN institutional membership. This means widespread and year-round recognition of your institution for taking ethics seriously, as well as access to a members-only website, including the new FBN *Guidelines for Ethics Committees*.

This year’s program will continue our track record in providing high-quality professional development for a broad array of health professionals.

The following sponsorship and group attendance benefits are available. **Note:** Because of these benefits, sponsorship contributions are not gifts or donations. Unused tuition slots are assigned to students, who always attend without charge. Please call or email for more information. Other sponsorship opportunities are available.

\$5,000 —90 tuitions at all events; pre-eminent acknowledgment on flyer and all virtual material; virtual course syllabi; and FBN institutional membership.

\$2,500 —40 tuitions; prominent acknowledgment on flyer and all virtual material; virtual course syllabi; and FBN institutional membership.

\$1,000 —15 tuitions; logo acknowledgment on flyer and all virtual material; virtual course syllabi; and FBN institutional membership.

Please share this document with appropriate colleagues to ensure a role in this important series.
